Listing of Claims

Claims 1-59 (Cancelled).

Claim 60 (Currently Amended): A system for managing orders received from a first shop and orders placed with a second shop comprising:

communication means for communicating data indicating statuses of orders received, and orders placed; and

display control means for controlling display of a <u>first</u> combination of a first group of management items <u>which indicate statuses of order process from order determined to acceptance</u> and <u>each number of the orders received</u> ~~data indicating a status~~ of the first group of management items, ~~included~~ <u>the first group under</u> ~~in~~ a first icon which is for discriminating <u>the first group of management items as</u> the orders received, ~~or~~ <u>and a second combination</u> of a second group of management items <u>which indicate statuses of order process from order determined to acceptance</u> and <u>each number of the orders placed</u> ~~data indicating a status~~ of the second group of management items, ~~included in~~ <u>the second group under</u> a second icon which is for discriminating <u>the second group of management items as</u> the orders placed,

wherein said display control means <u>prohibits</u> ~~controls displaying such as the first group of management items included in the first icon and the data indicating the status of the first group of management items included in the first icon, are not~~ <u>the first combination to be</u> displayed <u>except for the first icon</u>, in case where the orders received is not existence<u>,</u> ~~and displays the first icon,~~ and

2

wherein said display control means <u>prohibits</u> ~~controls displaying such as the second~~ ~~group of management items included in the second icon and~~ <u>the second combination to be</u> <u>displayed except for the second icon</u> ~~the data indicating the status of the second group of~~ ~~management items included in the second icon, are not displayed~~, in case where the orders placed is not existence~~, and displays the second icon~~ .

Claim 61-66 (Cancelled).

Claim 67 (Currently Amended):   A method for managing orders received from a first shop and orders placed with a second shop comprising:

a communication step of communicating data indicating statuses of orders received, and orders placed; and

a display control step of controlling to display a <u>first</u> combination of a first group of management items <u>which indicate the statuses of order process from order determined to</u> <u>acceptance</u> and <u>each number of the orders received</u> ~~data indicating a status~~ of the first group of management items, ~~included~~ the first group under ~~in~~ a first icon which is for discriminating <u>the</u> <u>first group of management items as</u> the orders received, ~~or~~ <u>and a second combination of</u> a second group of management items <u>which indicate statuses of order process from order determined to</u> <u>acceptance</u> and <u>each number of the orders placed</u> ~~data indicating a status~~ of the second group of management items, ~~included in~~ <u>the second group under</u> a second icon which is for discriminating <u>the second group of management items as</u> the orders placed,

wherein said display control step controls <u>prohibits</u> ~~displaying such as the first group of~~ ~~management items included in the first icon and the data indicating the status of the first group of~~ ~~management items included in the first icon, are not~~ <u>the first combination to be</u> displayed <u>except</u>

for the first icon, in case where the orders received is not existence, ~~and displays the first icon,~~ and

wherein said display control step prohibits ~~controls displaying such as the second group of management items included in the second icon and~~ the second combination to be displayed except for the second icon ~~the data indicating the status of the second group of management items included in the second icon, are not displayed~~, in case where the orders placed is not existence, ~~and displays the second icon~~.

Claim 68 (Cancelled).

Claim 69 (Currently Amended):   A storage medium storing program modules of a method executable on a computer for managing orders received from a first shop and orders placed with a second shop, wherein the program modules include:

a module for communicating data indicating statuses of orders received, and orders placed; and

a display control module for controlling to display a first combination of a first group of management items which indicate statuses of order process from order determined to acceptance and each number of the orders received ~~data indicating a status~~ of the first group of management items, ~~included~~ the first group under ~~in~~ a first icon which is for discriminating the first group of management items as the orders received, ~~or~~ and a second combination of a second group of management items which indicate statuses of order process from order determined to acceptance and each number of the orders placed ~~data indicating a status~~ of the second group of management items, ~~included in~~ the second group under a second icon which is for discriminating the second group of management items as the orders placed,

4

wherein said display control module prohibits ~~controls displaying such as the first group of management items included in the first icon and the data indicating the status of the first group of management items included in the first icon, are not~~ <u>the first combination to be</u> displayed <u>except for the first icon,</u> in case where the orders received is not existence~~, and displays the first icon,~~ and

wherein said display control module <u>prohibits</u> ~~controls displaying such as the second group of management items included in the second icon and~~ <u>the second combination to be displayed except for the second icon</u> the data indicating the status of the second group of the management items included in the second icon, are not displayed, in case where the orders placed is not existence~~, and displays the second icon~~.

Claims 70–96 (Cancelled).
